

2016 Safety Refresher Training

Presented By:
The Ragon Institute Lab Groups

September 13, 2016

Safety Day Presentation

Walker lab

The entire Walker lab eats at Chipotle and comes down with norovirus. Oh no!

Now, Bruce has to learn tissue culture safety. This is his story.

What do biosafety cabinets do?

What is the proper
cleaning/disinfection procedure?

What is the proper work setup to
ensure
product/personnel/environmental
protection?

When can you use chemicals in a biosafety cabinet?

Rap time.

“In the hood”

by D.J. Bruce, M.D.

feat. Lab R@ Squad

Go, Go, Go, Go, Go, Go,
Go Ragon,
It's Safety Day

We're
Gonna
Party
Like

**It's
Safety
Day**

We're gonna take precautions like
It's Safety Day

And you know we
don't give a # \$ @ ! If
it's Safety Day!

You can find me
In Da Hood

Spray bottle
full of bub'

Momma I got 293s
If you need to
split 'em up

I'm down to transfect
If you're sure to
double-glove

I've got my
Goggles on,

Gown
tied,

Fresh
bucket!

PEACE OUT
